Definition:

There are two types of telehealth services:

- **Asynchronous Telehealth (Store & Forward)** is the transfer of digital images, sounds, or previously recorded video from one location to another to allow a consulting practitioner (usually a specialist) to obtain information, analyze it, and report back to the referring practitioner. This is a non-interactive telecommunication because the physician or health care practitioner views the medical information without the patient being present.
- **Synchronous Telehealth** is real-time interactive video teleconferencing that involves communication between the patient and a distant practitioner who is performing the medical service. The practitioner sees the patient throughout the communication, so that two-way communication (sight and sound) can take place.

CPT/HCPCS Codes:

Synchronous Audio/Video CPT Codes:

- **98000:** Synchronous audio-video visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination and straightforward medical decision making. When using total time on the date of the encounter for code selection, 15 minutes must be met or exceeded
- **98001:** Synchronous audio-video visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination and low medical decision making. When using total time on the date of the encounter for code selection, 30 minutes must be met or exceeded
- **98002:** Synchronous audio-video visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination and moderate medical decision making. When using total time on the date of the encounter for code selection, 45 minutes must be met or exceeded
- **98003:** Synchronous audio-video visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination and high medical decision making. When using total time on the date of the encounter for code selection, 60 minutes must be met or exceeded
- **98004:** Synchronous audio-video visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and straightforward medical decision making. When using total time on the date of the encounter for code selection, 10 minutes must be met or exceeded
- **98005:** Synchronous audio-video visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and low medical decision making. When using total time on the date of the encounter for code selection, 20 minutes must be met or exceeded
- **98006:** Synchronous audio-video visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and moderate medical decision making. When using total time on the date of the encounter for code selection, 30 minutes must be met or exceeded
- **98007:** Synchronous audio-video visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and high medical decision making. When using total time on the date of the encounter for code selection, 40 minutes must be met or exceeded

Other CPT/HCPCS are often eligible to be reported via synchronous audio/video telehealth (refer to payor guidelines section for specific code sets)

Synchronous Audio-Only CPT Codes:

- **98008:** Synchronous audio-only visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination, straightforward medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 15 minutes must be met or exceeded
- **98009:** Synchronous audio-only visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination, low medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 30 minutes must be met or exceeded
- **98010:** Synchronous audio-only visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination, moderate medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 45 minutes must be met or exceeded
- **98011:** Synchronous audio-only visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination, high medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 60 minutes must be met or exceeded

- **98012:** Synchronous audio-only visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination, straightforward medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 10 minutes must be exceeded
- **98013:** Synchronous audio-only visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination, low medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 20 minutes must be met or exceeded
- **98014:** Synchronous audio-only visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination, moderate medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 30 minutes must be met or exceeded
- **98015:** Synchronous audio-only visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination, high medical decision making, and more than 10 minutes of medical discussion. When using total time on the date of the encounter for code selection, 40 minutes must be met or exceeded

Place of Service Codes

POS 02: Telehealth Provided Other than in Patient's Home

- The location where health services and health related services are provided or received, through telecommunication technology. Patient is not located in their home when receiving health services or health related services through telecommunication technology.

POS 10: Telehealth Provider in Patient's Home

- The location where health services and health related services are provided or received through telecommunication technology. Patient is located in their home (which is a location other than a hospital or other facility where the patient receives care)

Modifiers

Synchronous Telehealth Modifiers:

- **95:** synchronous telemedicine service rendered via real-time interactive audio and video telecommunications system
- **GT:** Via interactive audio and video telecommunication systems
- **G0:** Telehealth services furnished for purposes of diagnosis, evaluation, or treatment of symptoms of an acute stroke
- **FQ:** The service was furnished using audio-only communication technology.
- **93:** Synchronous telemedicine service rendered via telephone or other real-time interactive audio-only telecommunications system

Asynchronous Telehealth Modifier:

- **GQ:** Via an asynchronous telecommunications system

Reporting Criteria:

- Must be initiated by the patient
- Communication must be a direct interaction between the patient and the healthcare professional
- HIPAA compliant platform must be utilized

Documentation Requirements:

Telehealth services have the same documentation requirements as a face-to-face encounter. The information of the visit, history, review of systems, consultative notes, or any information used to make a medical decision about the patient should be documented. In addition, the documentation should note that the service was provided through telehealth, both the location of the patient and the provider, and the names and roles of any other persons participating in the telehealth visit, and the length of the call. Obtain consent at the start of the visit and ensure consent is documented. Maintain a permanent record of the telehealth visit in the patient's medical record.

Definition:

Online Digital Evaluation and Management Services (E-Visits) are an E/M service provided by a Qualified Healthcare Professional or an assessment provided by a Qualified Nonphysician Healthcare Professional to a patient using an audio and visual software-based communication, such as a patient portal.

CPT/HCPCS Codes:

Reportable by a Qualified Healthcare Professionals:

- **99421:** Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes.
- **99422:** Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 11-20 minutes.
- **99423:** Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 21 or more minutes.

Reportable by Qualified Nonphysician Healthcare Professionals (Physical Therapists, Occupational Therapists, Speech Language Pathologists, Clinical Psychologists Registered Dietitian, etc.):

- **G2061/98970:** Nonphysician qualified healthcare professional online digital assessment and management, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes
- **G2062/98971:** Nonphysician qualified healthcare professional online digital assessment and management, for an established patient, for up to 7 days, cumulative time during the 7 days; 11-20 minutes
- **G2063/98972:** Nonphysician qualified healthcare professional online digital assessment and management, for an established patient, for up to 7 days, cumulative time during the 7 days; 21 or more minutes

Reporting Criteria:

- Online visits must be initiated by the patient. However, practitioners can educate beneficiaries on the availability of e-visits prior to patient initiation.
- The patient must be established
- E-Visit codes can only be reported once in a 7-day period.
- Cannot report when service originates from a related E/M service performed/reported within the previous 7 days, or for a related problem within a postoperative period.
- E-Visits are reimbursed based on time.
 - The 7-day period begins when the physician personally reviews the patient's inquiry.
 - Time counted is spent in evaluation, professional decision making, assessment and subsequent management.
 - Time is accumulated over the 7 days and includes time spent by the original physician and any other physicians or other qualified health professionals in the same group practice who may contribute to the cumulative service time.
 - Does not include time spent on non-evaluative electronic communications (scheduling, referral notifications, test result notifications, etc.). Clinical staff time is also not included.

Documentation Requirements:

These are time-based codes, and documentation must support what the physician did and for how long. Time is documented and calculated over the 7-day duration and must meet the CPTs time requirement. Obtain verbal consent at the start of the visit and ensure the consent is documented. Maintain a permanent record of the telehealth visit in the patient's medical record.

Definition:

A brief check in between a practitioner and a patient via telephone or other audiovisual device to decide whether an office visit or other service is needed. A remote evaluation is recorded video and/or images submitted by an established patient.

CPT/HCPCS Codes:

- **98016:** Brief communication technology-based service (eg, virtual check-in) by a physician or other qualified health care professional who can report evaluation and management services, provided to an established patient, not originating from a related evaluation and management service provided within the previous 7 days nor leading to an evaluation and management service or procedure within the next 24 hours or soonest available appointment, 5-10 minutes of medical discussion
- **G2010:** Remote evaluation of recorded video and/or images submitted by an established patient (e.g., store and forward), including interpretation with follow-up with the patient within 24 business hours, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment.
- **G2250:** Remote assessment of recorded video and/or images submitted by an established patient (e.g., store and forward), including interpretation with follow-up with the patient within 24 business hours, not originating from a related service provided within the previous 7 days nor leading to a service or procedure within the next 24 hours or soonest available appointment.
- **G2251:** Brief communication technology-based service, e.g. virtual check-in, by a qualified health care professional who cannot report evaluation and management services, provided to an established patient, not originating from a related service provided within the previous 7 days nor leading to a service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of clinical discussion.
- **G2252:** Brief communication technology-based service, e.g. virtual check-in, by a physician or other qualified health care professional who can report evaluation and management services, provided to an established patient, not originating from a related e/m service provided within the previous 7 days nor leading to an e/m service or procedure within the next 24 hours or soonest available appointment; 11-20 minutes of medical discussion
- **G0071:** Payment for communication technology-based services for 5 minutes or more of a virtual (non-face-to-face) communication between an rural health clinic (RHC) or federally qualified health center (FQHC) practitioner and RHC or FQHC patient, or 5 minutes or more of remote evaluation of recorded video and/or images by an RHC or FQHC practitioner, occurring in lieu of an office visit; RHC or FQHC only

Reporting Criteria:

- The patient must be established
- Communication must be a direct interaction between the patient and the practitioner. Not billable if performed by clinical staff.
- If the virtual check-in originates from a related E/M provided within the previous 7 days, then the service is considered bundled into that previous E/M and would not be separately billable.
- If the virtual check-in leads to an E/M within the next 24 hours or soonest available appointment, then the service is considered bundled into the pre-visit time of the associated E/M and would not be separately billable.

Documentation Requirements:

Documentation should include medical decisions made, names and roles of any persons participating in the evaluation, and the communication method (telephone, video/audio software, etc.). Obtain verbal consent at the start of the visit and ensure the consent is documented. Maintain a permanent record of the telehealth visit in the patient's medical record.

PAYOR GUIDELINES

AETNA

Payor Specific Key Points

E-Visits/Virtual Check Ins:

Allowable Codes:

- **E-Visits:** Check Contracted Fee Schedule
- **Virtual Check-Ins:** Check Contracted Fee Schedule

Remote Patient Monitoring:

Allowable Codes:

- 98975, 98976, 98977, 98978, 98980, 98981, 99453, 99454, 99457, 99458

Modifier:

- No telehealth modifier required

Interprofessional Codes:

Allowable Codes:

- 99446-99449, 99451, 99452, G9037, G0546-G0551

Modifier:

- No telehealth modifier required

Telehealth:

Allowable Services:

See table below for allowable code set

Audio Only Services:

Designated codes, highlighted in blue in the below "Telehealth Allowable Codes" matrix, can be performed via an audio only connection

Modifiers/POS:

- **POS** 02 or 10
- **Modifiers**
 - **Audio-Visual:** GT, 95, FR
 - **Audio-Only:** 93, FQ
 - **Asynchronous:** GQ

Direct Patient Contact:

Unless listed as a covered service, medical services that do not include direct in-person patient contact are not payable

Not Reimbursable:

- Care Plan Oversight
- Concierge Medicine (boutique medicine)
- Missed appointments

Transmission & Originating Site Fees:

T1014 and Q3014 are not eligible for payment, Aetna considers these services as incidental to the charges associated with the E/M.

- No modifier required

Remote Patient Monitoring

Remote Patient Monitoring (RPM) is approved when both of the following are met:

- A physician or qualified healthcare practitioner has determined that the patient's condition:
 - Is high-risk for decompensation or complication that may lead to hospitalization or another acute intervention
 - Requires monitoring for a current or new treatment plan
- There is an order written by a physician or QHP that specifies the medical condition and the length of time for RPM, up to 90 days

Services included in RPM:

- Initial set-up and patient instruction of the monitoring device
- RPM for up to 90 days
- For RPM services beyond 90 days:
 - There is a physician/QHP order for the continuation of RPM; and the medical record contains documentation that supports the medical necessity for continued RPM, and reflects that the results of the monitoring are used in clinical decision-making and intervention
 - RPM (after the first 90 days) is billed with modifier KX
 - Complex patients with chronic conditions who are at high risk for intermittent exacerbations and poor long-term clinical outcomes may benefit from longer-term RPM within the context of a Provider-Delivered Case Management (PDCM), health plan-administered care management program, or an approved provider organization or vendor-managed care management program.
- RPM treatment management services, when in response to physiological parameters that require intervention
- Physician interpretation of the physiological or psychological data
- Remote patient monitoring should include daily monitoring or programmed alert transmissions
- Each 30-day billing cycle must include at least 16 days of monitoring

Allowable Codes:

- 99453, 99454, 99457, 99458, 99091

Telehealth:***Allowed Services:***

Telemedicine may substitute for a face-to-face, hands-on encounter between a patient and the healthcare provider

- Any code that is appropriate for both the encounter and provider scope and is delivered synchronously (in real time) is allowed
- Behavioral health care services may be delivered via synchronous telemedicine, including intensive outpatient program (IOP) and partial hospital program (PHP) services
- Autism services are allowed via telemedicine synchronous care, but with limitations and exceptions
- Asynchronous / Store and Forward telehealth is allowable:
 - The patient data (pre-recorded videos, digital images such as x-rays or photos, test results or any other information necessary for the evaluation) must be transmitted over a secured channel
 - Behavioral health services are not appropriate via telemedicine asynchronous care

Audio Only:

- Audio only (telephone) is permitted

Communication Requirements:

A secured electronic channel must include and support all the following for audio and audio/ visual encounters:

- Must be secure, including encryption, in accordance with HIPAA guidelines
- A mechanism must be in place to authenticate the identity of correspondent(s) and to ensure that recipients of information are authorized to receive it
- The patient's informed consent to participate in the consultation must be obtained, including discussing appropriate expectations, disclaimers and service terms, and any fees. Expectations for appropriate use must be specified as part of the consent process including use of specific written guidelines and protocols, avoiding emergency use, heightened consideration of use for highly sensitive medical topics relevant to privacy issues.
- The name and patient identification number is contained in the body of the message, when applicable
- A standard block of text is contained in the provider's response that contains the physician's full name, contact information, and reminders about security and the importance of alternative forms of communication for emergencies, when applicable.
- The medical record of the telemedicine visit should include copies of all patient-related electronic communications, prescriptions, laboratory and test results, evaluations and consultations, records of past care, and instructions obtained or produced in connection with the utilization of telemedicine technologies. Informed consents obtained in connection with an encounter involving telemedicine technologies should also be filed in the medical record.

Modifiers/POS:

- **POS** 02 or 10
- **Modifier** GT, 95, 93
- **Asynchronous:** Modifier GQ and POS 02 or 10

Non-Covered Services:

- Request for medication refills
- Reporting of normal test results
- Provision of educational materials
- Scheduling of appointments and other healthcare related issues
- Registration or updating billing information
- Reminders for healthcare related issues
- Referrals to other providers
- An online or telemedicine visit resulting in an office visit, urgent care or ER encounter on the same day for the same condition
- An online visit for the same condition of an online visit within the previous seven days
- An online or telemedicine visit during the post-operative period, when the issue is related to the surgery or procedure that was performed
- Artificial intelligence (AI) technology, when independent of management by a recognized provider

Patient Location:

Patient may be located at any originating location, including their home

Provider Type:

An eligible provider is any practitioner who is able to bill independently and receive direct reimbursement for services

The provider must be licensed, registered, or otherwise authorized to perform service in their health care profession in the state where the patient is located. Services must fall within their scope of practice

Reimbursement:

Refer to contracted fee schedule

Transmission & Originating Site Fees:

Review contracted fee schedule to determine if Q3014 is allowed when patient presents to an eligible healthcare facility

Payor Specific Key Points

E-Visits/Virtual Check Ins:

Allowable Codes:

- **E-Visits:** Not Allowable
- **Virtual Check-Ins:** 98016

Interprofessional Consultations:

Cigna recognizes E-Consult codes, which occurs when a treating health provider seeks guidance from a specialist physician through electronic means (phone, internet, EHR consultation, etc.)

- **Allowable Codes:** 99446-99452
- **Non-Billable:**
 - If the consultation to a transfer of care or other face-to-face service (e.g., a surgery, a hospital visit, or a scheduled office evaluation of the patient) within the next 14 days or next available appointment date of the consultant, these codes should not be billed.
 - If the consultation lasted less than 5 minutes.
 - If the consultation was for the sole purpose to arrange transfer of care or a face-to-face visit.

Remote Patient Monitoring:

Cigna recognizes remote patient monitoring, which is the use of digital technologies to monitor and capture medical data from patients and electronically transmit this information to healthcare providers for assessment:

- **Allowable codes:** 99091, 99453, 99454, 99457, 99458, 99473, 99474, G0322
- [Detailed Medical Policy for Conditions Allowed via RPM](#)

Telehealth Medical:

Allowable Services:

See below table for allowable medical telehealth codes

All of the following must also be met:

- Services must be interactive and use both audio and video internet-based technologies, and would be reimbursed if the service was provided face-to-face
 - Video not required for synchronous audio only visit, CPT 98008-98015
- The patient or involved caregiver must be present on the receiving end and the service must occur in real time
- All technology used must be secure and meet or exceed federal and state privacy requirements
- A permanent record of online communications relevant to the ongoing medical care and follow-up is maintained as part of the record as if the service were provided as an in-office visit
- The permanent record must include documentation which identifies the virtual service delivery method. i.e.: audio/video or telephone only
- All services provided are medically appropriate and necessary
- The evaluation and management services (E/M) provided virtually must meet E/M criteria
- The patient's clinical condition is of low to moderate complexity, and while it may be an urgent encounter, it should not be an emergent clinical condition
- Virtual care services must be provided by a health care professional who is licensed, registered, or otherwise acting within the scope of his/her licensure.

Excluded Services:

- The virtual care service occurs on the same day as a face to face visit, when performed by the same provider and for the same condition.
- Transmission of digitalized data is considered integral to the procedure performed and is not separately reimbursable.
- Virtual care services billed within the post-operative period of a previously surgical procedure will be considered part of the global payment for the procedure.
- Services were performed via asynchronous communications systems (e.g., fax).

- Store and forward telecommunication, whether an appropriate virtual care modifier is appended to the procedure code or not.
- Patient communications are incidental to E/M services, counseling, or medical services, including, but not limited to reporting of test results and provision of educational materials.
- Administrative matters, including but not limited to, scheduling, registration, updating billing information, reminders, requests for medication refills or referrals, ordering of diagnostic studies, and medical history intake completed by the patient.
- No reimbursement will be made for any equipment used for virtual care communications.

Audio Only:

Synchronous audio only visit, CPT 98008-98015, are allowable

Telehealth Behavioral Health:

Allowable Services:

See below table for allowable medical telehealth codes.

All of the following must also be met:

- Services must be interactive and use audio and/or video internet-based technologies (synchronous communication), and would be reimbursed as if the service was provided face-to- face
- The patient and/or actively involved caregiver must be present on the receiving end
- All technology used must be secure and meet or exceed federal and state privacy requirements.
- A permanent record of online communications relevant to the ongoing care and follow- up is maintained as part of the medical record as if the service were provided as an in-office visit
- The permanent record must include documentation which identifies the virtual service delivery method. I.E.: audio/video or telephone only
- All services provided are medically appropriate and necessary
- The evaluation and management services (E/M) provided virtually must meet E/M criteria
- While some aspects of care in an acute setting may be rendered virtually, exclusively virtual services should be limited to situations when the clinical condition is low to moderate complexity and not the primary intervention for an emergent clinical condition.
- Virtual care services must be provided by a health care professional who is licensed, registered, or otherwise acting within the scope of his/her licensure.

Excluded Services:

- The virtual care service occurs on the same day as a face to face visit, when performed by the same provider and for the same condition.
- Transmission of digitalized data is considered integral to the procedure performed and is not separately reimbursable.
- Patient communications are incidental to E/M services, counseling, or medical services, including, but not limited to reporting of test results and provision of educational materials
- Administrative matters, including but not limited to, scheduling, registration, updating billing information, reminders, requests for medication refills or referrals, ordering of diagnostic studies, and medical history intake completed by the patient.
- No reimbursement will be made for the originating site of service fee or facility fee, unless otherwise mandated by state or federal law
- No reimbursement will be made for any equipment used for virtual care communications.

Modifiers/POS:

- **POS 02**
 - Do not bill POS 10 until further notice
- **Modifier 95, GT, GQ, 93 or FQ**

Provider Type:

Providers who are licensed, registered, or otherwise acting within the scope of their licensure may provide telehealth services.

Transmission & Originating Site Fees:

Cigna will not reimburse an originating site of service fee/facility fee for telehealth visits (HCPCS Q3014). Cigna will also not reimburse transmission fees; transmission of digitalized data is considered integral to the procedure performed and is not separately reimbursable.

Payor Specific Key PointsE-Visits/Virtual Check Ins:**Allowable Codes:**

- **E-Visits:** 99421-99423, 98970-98972, G2061-G2063
- **Virtual Check-In:** G2010, 98016

Telehealth:**Synchronous Telehealth Allowable Codes:**

See table below for specific codes.

- **Wellness Visits:** Medica will temporarily allow preventive care services, CPT 99381-99387 and 99391-99397, to be provided via telehealth services. Providers may perform all, or portions of, a preventive medicine visit that can be done so appropriately via telehealth services. Services that require face-to-face interaction may be provided later, however, providers may only bill one preventive medicine code to cover both the portion done via telehealth and any necessary face-to-face interaction associated with the preventive care service.
- **Behavioral Health:** Allowable services:
 - Services recognized by the Centers for Medicare and Medicaid Services (CMS), and
 - Services recognized by the American Medical Association (AMA) included in Appendix P of the CPT code set, and
 - Additional services identified by Optum behavioral health that can be effectively performed via Telehealth

Store and Forward Telehealth:

Medica allows asynchronous (store and forward) telehealth. Utilize modifier GQ. Medical information may include without limitation: video clips, still images, X-rays, MRIs, EKGs, laboratory results, audio clips and text. The physician at the distant site reviews the case without the member being present. Store and Forward substitutes for an interactive encounter with the member present (i.e., the member is not present in real-time).

Modifiers/POS:

- **POS** 02 or 10
- **Modifier** 95, 93, FQ, G0, GQ, or GT

Provider Type:

Audiologist, Certified Genetic Counselor, Clinical Nurse Specialist, Clinical Psychologist, Clinical Social Worker, Licensed Professional Clinical Counselor, Licensed Marriage and Family Therapist, Licensed Drug & Alcohol Counselor, Dentist, Nurse Midwife, Nurse Practitioner, Occupational Therapist, Physical Therapist, Physician, Physician Assistant, podiatrist, Registered Dietitian or Nutrition Professional, and Speech Therapist.

Reimbursement:

Reimbursement will be at the same rate as in-person face-to-face visits, refer to your Medica contract for allowable rates.

Originating Sites:

The following are examples of originating sites: Community mental health center, Critical-access hospital (CAH), End stage renal disease (ESRD) facilities, Home, Hospital (inpatient or outpatient), Hospital or CAH-based renal dialysis center (including satellites), Office of physician or practitioner, Other eligible medical facilities, Other locations as required by applicable state law, Residential substance abuse treatment facility, Rural health clinic (RHC) and federally qualified health center (FQHC), Skilled nursing facility (SNF)

Transmission & Originating Site Fees:

Transmission fees (HCPCS T1014) are not eligible for payment, however Medica will allow an originating site fee (HCPCS Q3014) to be billed by an originating site facility.

Coverage Limitations:

Provider initiated e-mail, refilling or renewing existing prescriptions, scheduling a diagnostic test or appointment, clarification of simple instructions or issues from a previous visit, reporting test results, reminders of scheduled office visits, requests for a referral, non-clinical communication, educational materials, brief follow-up of a medical procedure

without indication of complication or new condition including, but not limited to, routine global surgical follow-up, brief discussion to confirm stability of the patient's without change in current treatment, when information is exchanged and the patient is subsequently asked to come in for an office visit, a service that would similarly not be charged for in a regular office visit, consultative message exchanges with an individual who is seen in the provider's office immediately afterward, communication between two licensed health care providers that consists solely of a telephone conversation, email or facsimile, communications between a licensed health care provider and a patient that consists solely of an e-mail or facsimile

Audio Only:

Interactive audio and video communications that permit real-time communication between the distant site physician or practitioner and the member. The services must be of sufficient audio and visual fidelity with clarity and function equivalent to a face-to-face encounter

Covered Telehealth Services CPT Codes listed above are not intended as an exhaustive list of all relevant codes

Payor Specific Key Points:E-Visits/ Virtual Check Ins:**Allowable Codes:****E-Visits:** 99421-99423, G2061-G2063**Virtual Check-In:** G2010, G8016, G2250-G2252**Modifiers:** NoneTelehealth:**American Relief Act 2025:**

Extends certain telehealth flexibilities for Medicare patients through March 31st, 2025:

- Originating Site & Geographic Restriction waived
- Allows any health care provider who is eligible to bill Medicare for covered services to continue to provide and bill for telehealth services
- In person requirement for mental health services via telehealth waived
- Extension of FQHC/RHC to serve as originating site for non-behavioral/mental telehealth services

Allowable Codes:

See table below for codes allowable via telehealth

- For CY 2025, CMS will continue to allow the suspension of frequency limitations for subsequent inpatient visits, subsequent nursing facility visits, and critical care consultations

Audio Only:

Effective January 1, 2025, an interactive telecommunications system may include two-way, real-time, audio-only communication technology for any Medicare telehealth service furnished to a beneficiary in their home, if the distant site physician or practitioner is technically capable of using an interactive telecommunications system, but the patient is not capable of, or does not consent to, the use of video technology

Consent:

Providers may get patient consent at the same time they initially provide the services. Direct supervision isn't required to get consent. In general, auxiliary personnel under general supervision of the billing practitioner can get patient consent for these services.

Hospital Based Providers:

Hospitals and other providers of PT, OT, SLP, diabetes self-management training (DSMT) and medical nutrition therapy (MNT) services can continue to bill for telehealth services when provided remotely

- For outpatient hospitals, patients' homes no longer need to be registered as provider-based entities to allow for hospitals to bill for these services
- The 95 modifier is required on claims from all providers, except for Critical Access Hospitals (CAHs) electing Method II (which utilize a GT modifier)

Modifiers/POS:

- **POS:**
 - 02 or 10
- **Modifier:**
 - Use modifier 95 when the clinician is in the hospital and the patient is in the home, as well as for outpatient therapy services provided via telehealth by qualified PTs, OTs, or SLPs through March 31st, 2025
- **Mental Health Claims:** POS 02 or 10
 - **Modifier** 93 if performed over audio only
- **CAH Method II (UB) Claims:** Modifier GT

Patient Location:

Through March 31st, 2025, there is not an originating site or geographic restriction

Mental Health Place of Service:

CMS permanently added a patient's home as an originating site for patients receiving mental health services via telehealth. "Home" includes temporary lodging. Must meet the following requirements:

- The provider (or another provider in the same practice and subspecialty) has conducted an in-person (non-telehealth) visit within 6 months
- After the initial tele-mental health visit, the provider must conduct an in-person visit at least once every 12 months
 - However, this visit is not required if the patient and provider consider the risks of an in-person visit and agree that the risks outweigh the benefits
 - Provider should document decision in the patient's medical record
- Through March 31st, 2025, the initial 6 month visit and the in person visit every 12 month requirement is waived

Provider Type:

Physicians, nurse practitioners, physician assistants, nurse midwives, certified nurse anesthetists, clinical psychologists, clinical social workers, registered dietitians, and nutrition professionals

- Through March 31st, 2025, any health care provider who is eligible to bill Medicare for covered services can provide and bill for telehealth services

Provider Location:

Through CY 2025, CMS will continue to permit distant site practitioners to use their currently enrolled practice locations instead of their home addresses when providing telehealth services from their home

Reimbursement:

When telehealth services are provided to people in their homes (POS 10), the service will be reimbursed at the non-facility rate. However, if the telehealth service is provided when the patient is not in their home, and POS 02 is utilized, then the service will be reimbursed at the facility rate.

Rural Health Clinics & Federally Qualified Health Centers:

See the RHC and FQHC section for specific billing regulations

Supervision:

Effective January 1st, 2025 CMS permanently adopted a definition of direct supervision that allows the supervising physician or practitioner to provide such supervision via a virtual presence through real-time audio and visual interactive telecommunications. The supervising physician or practitioner may provide such virtual direct supervision:

- For services furnished incident to a physician or other practitioner's professional service, when provided by auxiliary personnel employed by the billing physician or supervising practitioner and working under his or her direct supervision, and for which the underlying HCPCS code has been assigned a PC/TC indicator of "5" and services described by CPT code 99211
- For office or other outpatient visits for the evaluation and management of an established patient who may not require the presence of a physician or other qualified health care professional

For all other services furnished incident to that require the direct supervision of the physician or other supervising practitioner, we are finalizing to continue to permit direct supervision be provided through real-time audio and visual interactive telecommunications technology only through December 31, 2025

Teaching Physicians:

CMS will allow teaching physicians to have a virtual presence for purposes of billing for services furnished involving residents in all teaching settings, but only in clinical instances when the service is furnished virtually (for example, a three-way telehealth visit, with the patient, resident, and teaching physician in separate locations) through December 31, 2025

- This virtual presence will continue to meet the requirement that the teaching physician be present for the key portion of the service

Transmission/ Originating Site Fees:

Medicare does not reimburse for transmission fees. If applicable, Medicare will reimburse an originating site fee (HCPCS Q3014)

Payor Specific Key Points:**E-Visits/Telephone/Virtual Check Ins:****Allowable Codes:**

- **E-Visits:** 99421-99423
- **Telephone:** 98955-98968
- **Virtual Check-In:** G2251, 98016 (requires 93 modifier)

Remote Patient Monitoring:**Allowable Codes:**

- Refer to allowable telehealth code set below

Telehealth:**Telehealth Principles:**

MDHHS has established the following principles to be used during the provision of telehealth services:

- Effectual services – a service provided via telemedicine should be as effective as its in-person equivalent, ensuring convenient and high-quality care.
- Improved and appropriate access – the right visit, for the right beneficiary, at the right time by minimizing the impact of barriers to care, such as transportation needs or availability of specialty providers in rural areas.
- Appropriate beneficiary choice – the beneficiary is an active participant in the decision for telemedicine as a means for service delivery as appropriate (e.g., Does the beneficiary prefer telemedicine to an in-person visit? What is the optimal combination of ongoing service delivery for the individual? etc.).
- Appropriate utilization – ensure providers are utilizing telemedicine appropriately and that items A-C above are taken into consideration when offering these services.
- Value considerations – telemedicine visits should yield the desired outcomes and quality measures; health outcomes should be improving and remain consistent with in-person care at a minimum.
- Privacy and security measures – providers must ensure the privacy of the beneficiary and the security of any information shared via telemedicine in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and other privacy/security regulations as applicable.

Allowable Services:

- See allowable telehealth code set below
- Asynchronous service codes are listed on the corresponding provider specific fee schedules
 - Asynchronous services do not include telephone calls, images transmitted via facsimile machines, and text messages without visualization of the beneficiary
- PIHP/CMHSP:
 - Telemedicine is allowed for all services indicated in the Bureau of Specialty Behavioral Health Services Telemedicine Database
 - Telehealth visit needs to align with the same standards of an in-person visit.
 - Any phone call or web platform used to schedule, obtain basic information or miscellaneous work that would have been billed as a non-face-to-face and therefore non-billable contact, will remain non-billable
 - Telehealth visits must include service provision as indicated in the IPOS and should reflect work towards or review of goals and objectives
- Outpatient Mental Health Services Providers
 - FFS/MHP enrolled non-physician behavioral health services may be provided via telemedicine when performed by Medicaid-enrolled psychologists, social workers, counselors, and marriage and family therapists
 - Services are covered when performed in a non-facility setting or outpatient hospital clinic
- Physical, Occupational, and Speech Therapy
 - Therapy services provided via telehealth are intended to be an additional treatment tool and complement in-person services where clinically appropriate
 - Documentation re-evaluation, performance, and treatment elements that typically require hands-on contact for measurement or assessment must include a thorough description of how the assessment or performance findings were established via telemedicine. This includes, but is not limited to, such elements as standardized tests, strength, range of motion, and muscle tone.

- Services that require utilization of equipment during treatment and/or physical hands-on interaction with the beneficiary cannot be provided via telemedicine.
- Therapy re-evaluations performed via telemedicine must be provided by a therapist whose facility/clinic has previously evaluated and/or treated the beneficiary in-person.
- Audiology
 - Audiology services provided via telemedicine are intended to be an additional treatment tool and complement in-person services where clinically appropriate
 - Reimbursable procedure codes are limited to the specific set of audiology codes listed in the allowable telehealth code set below
- Dentistry
 - Services must be performed using simultaneous audio/visual capabilities
 - Utilize D9995
- Vision
 - Telemedicine vision services can be provided through a Medicaid-enrolled provider who can report evaluation and management (E/M) services as listed in the below allowable telehealth code set.
 - An intermediate ophthalmological exam can be provided via telemedicine for an established patient with a known diagnosis. The provider must have a previous in person encounter with the patient.
- School Services
 - Telemedicine may be the primary delivery modality for some beneficiaries; however, the decision to use telemedicine should be based on the needs or convenience of the beneficiary, and not those of the provider
 - In cases where the beneficiary is unable to use telemedicine equipment without assistance, an attendant must be provided by the provider
- Where in-person visits are required (such as End Stage Renal Disease [ESRD] and nursing facility-related services), the telemedicine service may be used in addition to the required in-person visit but cannot be used as a substitute. There must be at least one in-person hands-on visit (i.e., not via telemedicine) by a physician, physician's assistant, or advanced practice registered nurse per month to examine the vascular site for ESRD services.

Audio Only:

- In situations where the patient cannot access services via a simultaneous audio/visual platform, either due to technology constraints or other concerns, MDHHS will allow audio-only services for specific codes (listed below)
- Additional guidelines for audio-only service include:
 - Visits that include an assessment tool—the tool must be made available to the beneficiary and the provider must ensure the beneficiary can access the tool.
 - When a treatment technique or evidence-based practice requires visualization of the beneficiary, it must be performed via simultaneous audio/visual technology.
 - Audio-only must be performed at the preference of the beneficiary, not the provider's convenience.
 - Privacy and security of beneficiary information must always be established and maintained during an audio-only visit

Considerations:

Telemedicine must only be utilized when there is a clinical benefit to the beneficiary. Examples of clinical benefit include:

- Ability to diagnose a medical condition in a patient population without access to clinically appropriate in-person diagnostic services.
- Treatment option for a beneficiary population without access to clinically appropriate in-person treatment options.
- Decreased rate of subsequent diagnostic or therapeutic interventions (for example, due to reduced rate of recurrence of the disease process).
- Decreased number of future hospitalizations or physician visits.
- More rapid beneficial resolution of the disease process treatment.
- Decreased pain, bleeding, or another quantifiable symptom

Contingency Planning:

A contingency plan, including referral to an acute care facility or ER for treatment as necessary for the safety of the patient, is required when utilizing telehealth. This plan must include a formal protocol appropriate to the services being rendered.

Modifiers/POS:

- **POS** that would be reported if the service were in person
 - **School Services**- POS 03
 - **Dental**: POS 02 or 10

- **Modifier:** 93 or 95
- **Facility Claims:** Appropriate revenue code and modifier 93 or 95
- **PIHP/CMHSP Providers**
 - Audio/visual telemedicine- POS 02 or 10
 - Audio Only- POS 02 or 10 and modifier 93

Patient Location:

The patient's home or another established site considered appropriate by the provider are allowable originating sites, as long as privacy and security requirements are met

Provider Type:

Telemedicine providers must be enrolled in Michigan Medicaid and must have the ability to refer the beneficiary to another provider of the same type or specialty who can see the beneficiary in-person when necessary

Michigan Medicaid telemedicine policy permits providers who are licensed in another state to render/be reimbursed for telemedicine services for Michigan Medicaid-enrolled beneficiaries if the beneficiary is in the state where the provider is licensed

- Unless otherwise specified in policy, telemedicine providers associated to a billing provider located outside of Michigan must obtain prior authorization (PA) for services

Telemedicine providers who do not have a physical location for treatment, but are Michigan licensed and meet all other Medicaid enrollment requirements, are considered "virtual-only", and are permitted to render services for Michigan Medicaid-enrolled beneficiaries

- Subject to out-of-state provider PA requirements

Telemedicine providers who have an Authority to Practice Interjurisdictional Telepsychology (APIT) certificate from the PSYPACT Commission are eligible to render/be reimbursed for telemedicine services for Medicaid beneficiaries as authorized under PSYPACT and allowed by Medicaid telemedicine policy

Reimbursement:

Reimbursement for allowable telehealth services will be the same as in-person services

Transmission & Originating Site Fees:

Authorized Originating Sites that are eligible for Q3014 reimbursement are:

- Local Health Departments, county mental health clinic or publicly funded mental health facility, FQHC, Hospital, Office of a physician or other practitioner, hospital based renal dialysis centers, RHC, skilled nursing facility, tribal health center, local health department

- **Virtual Check-In:** 98016, G2010, G2250-G2252

POS/Modifier:

POS utilized if visit would have in person and no modifier

Remote Patient Monitoring Codes:**Allowable Codes:**

- 98975-98978, 98980-98981, 99091, 99457, 99458, 99473-99474

POS/Modifier:

POS utilized if visit would have in person and no modifier

Interprofessional Assessment Codes:**Allowable Codes:**

- 99446-99449, 99451-99454, G9037, G0546-G0551

POS/Modifier:

POS utilized if visit would have in person and no modifier

Telehealth:**Allowable Codes:**

UHC will allow any services on the below lists:

- Services recognized by the Centers for Medicare and Medicaid Services (CMS)
- Services recognized by the American Medical Association (AMA) included in Appendix P of the CPT code set
- Additional services identified by UnitedHealthcare that can be effectively performed via Telehealth
 - See Telehealth Allowable Codes table below for UHC specified codes
- Consistent with CMS, UHC will not recognize CPT 98000-98015, as they are assigned to status code "I" on the NPFS Relative Value File, indicating another code (replacement code) is used to report the procedure or service and that replacement code has an assigned RVU

Modifiers/POS:

- **POS** 02 or 10
- **Modifiers**
 - **Audio/Video:** 95, GT, GQ, and G0 are not required to identify telehealth services but are accepted as informational if reported on claims
 - **Audio-Only:** 93

Provider Type:

Physician, nurse practitioner, physician assistant, nurse-midwife, clinical nurse specialist, registered dietitian or nutrition professional, clinical psychologist, clinical social worker, certified registered nurse anesthetists, physical therapists, occupational therapists, and speech therapists.

Patient Location:

UHC will recognize CMS designated originating sites considered eligible for furnishing telehealth services to a patient located in an originating site.

- Examples of CMS originating sites with a telepresenter: the office of a physician or practitioner, hospital, critical access hospital (CAH), rural health clinic (RHC), federally qualified health center (FQHC), hospital based renal dialysis center, skilled nursing facility (SNF), community mental health center (CMHC), mobile stroke unit, patient home-for monthly end stage renal, ESRD-related clinical assessments, for purposes of treatment of a substance use disorder or a co-occurring mental health disorder.
- UHC will also recognize home as an originating site for telehealth services (no telepresenter present)

Transmission & Originating Site Fees:

UHC will allow the originating site to submit a claim for services of the telepresenter using HCPS Q3014. Note: Telehealth POS codes 02 and 10 do not apply to originating site facilities reporting code Q3014 and POS codes 02 and 10 should not be reported by an originating site facility if code Q3014 is reported. For POS where code Q3014 is reported, report the valid POS code reflecting the location of the patient. T1014 is not eligible for payment, UHC considers these services as incidental to the charges associated with the E/M.

Audio Only Component:

Telehealth services must be performed over an audiovisual connection, unless audio only allowable code is utilized

- UHC will align with the AMA and will consider for reimbursement the services included in Appendix T of the CPT code set, which are appropriate for reporting real-time, interactive audio-only telehealth, when appended with modifier 93, and reported with POS 02 or 10.
- All PT/OT/ST Telehealth visits must be performed using live, interactive video conferencing that involves the presence of both parties at the same time and a communication link between them that allows a real-time audio and visual interaction to take place. E-mailing “stored” exercise videos and discussing or reviewing by phone is not reimbursable.

Payor Specific Key Points:

Virtual Check Ins/E-Visits:

Virtual Check-Ins & E-Visits:

RHC/FQHCs can perform E-Visits and Virtual Check Ins

- Utilize HCPCS G0071 if E-Visit or Virtual Check-In services are performed.
- **Reimbursement:** is set at the average of the national non-facility PFS payment rates for the E-visits and Virtual Check-In codes. For 2025 the rate is set at \$13.91
- **G0071:** Payment for communication technology-based services for 5 minutes or more of a virtual (non-face-to-face) communication between RHC or FQHC practitioner and RHC or FQHC patient, or 5 minutes or more of remote evaluation of recorded video and/or images by an RHC or FQHC

Care Coordination Services

Effective January 1st, 2025 RHCs and FQHCs will report the individual CPT and HCPCS codes that describe care coordination services instead of the single HCPCS code G0511

- Add on codes associated with these services will also be allowed

CMS is allowing for a transition period of six-months, at least until July 1, 2025, to allow RHCs/FQHCs to update their billing systems

Telehealth:

RHC/FQHC Distant Site Provider Extension:

Under the 2025 Medicare Physician Final Rule, RHCs and FQHCs can continue to bill for RHC and FQHC services furnished using telecommunication technology, including services furnished using audio-only communications technology through December 31, 2025

Allowable Codes:

RHCs/FQHCs can perform any service listed in the below telehealth allowable code set matrix, but must bill G2025

Billing:

- **HCPCS:** G2025
- **POS:** 02 or 10
- **Modifier:** FQ if provided via audio only
- **Mental Health Claims:** POS 02 or 10 and modifier FQ if performed via audio only

Mental Health Services:

- CMS will permanently allow mental health telehealth services performed by an RHC/FQHC
- The service must be either audio visual OR
- Audio-only if the following are present:
 - The patient is incapable of, or fails to consent to, the use of video technology for the service
 - The provider has conducted an in-person visit within the last 6 months of the initial tele-mental service
 - The services are medical necessary
 - After the initial telehealth visit, the provider conducts an in-person visit at least once every 12 months of each tele-mental visit.

- However, if the patient and provider consider the risks of an in person service and agree that these risks outweigh the benefits, then the annual visit may be skipped.
- Providers must document the decision
- Until January 1st, 2026, the initial 6 month visit and the in person visit every 12 month requirement is waived

Provider Type:

Physicians, Nurse practitioners (NPs), Physician assistants (PAs), Certified nurse-midwives (CNMs), Clinical psychologists (CPs), Clinical social workers (CSWs), Marriage and family therapists (MFTs), Mental health counselors (MHCs)

Reimbursement:

The RHC/FQHC telehealth payment rate is the average amount for all PFS telehealth services on the telehealth list, weighted by volume for those services reported under the PFS. For 2025 the rate is \$94.45

Supervision:

CMS will continue to allow direct supervision via interactive audio and video telecommunications and to extend the definition of "immediate availability" as including real-time audio and visual interactive telecommunications (excluding audio-only) through December 31, 2025

Transmission/ Originating Site Fees:

Medicare does not reimburse transmission fees. If applicable, Medicare will reimburse an originating site fee (HCPCS Q3014)

Audio Only:

Effective January 1, 2025, an interactive telecommunications system may include two-way, real-time, audio-only communication technology for any Medicare telehealth service furnished to a beneficiary in their home, if the distant site physician or practitioner is technically capable of using an interactive telecommunications system, but the patient is not capable of, or does not consent to, the use of video technology

MEDICAID

Payor Specific Key Points:

E-Visits/Telephone/Virtual Check Ins:

Allowable Codes:

- **E-Visits:** Not on RHC/FQHC Fee Schedule
- **Virtual Check-In:** Not on RHC/FQHC Fee Schedule

Remote Patient Monitoring:

Allowable Codes:

- Refer to allowable telehealth code set below

Telehealth:

Telehealth Principles:

MDHHS has established the following principles to be used during the provision of telehealth services:

- Effectual services – a service provided via telemedicine should be as effective as its in-person equivalent, ensuring convenient and high-quality care.
- Improved and appropriate access – the right visit, for the right beneficiary, at the right time by minimizing the impact of barriers to care, such as transportation needs or availability of specialty providers in rural areas.
- Appropriate beneficiary choice – the beneficiary is an active participant in the decision for telemedicine as a means for service delivery as appropriate (e.g., Does the beneficiary prefer telemedicine to an in-person visit? What is the optimal combination of ongoing service delivery for the individual? etc.).
- Appropriate utilization – ensure providers are utilizing telemedicine appropriately and that items A-C above are taken into consideration when offering these services.
- Value considerations – telemedicine visits should yield the desired outcomes and quality measures; health outcomes should be improving and remain consistent with in-person care at a minimum.
- Privacy and security measures – providers must ensure the privacy of the beneficiary and the security of any information shared via telemedicine in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and other privacy/security regulations as applicable.

Allowable Services:

- See allowable telehealth code set below
- Asynchronous service codes are listed on the corresponding provider specific fee schedules
 - Asynchronous services do not include telephone calls, images transmitted via facsimile machines, and text messages without visualization of the beneficiary
- Physical, Occupational, and Speech Therapy
 - PT, OT and ST, when provided in accordance with this policy using both audio/visual modalities, will be considered face-to-face and will trigger the PPS AIR if the service billed is listed as a qualifying visit.
- Where in-person visits are required (such as End Stage Renal Disease [ESRD] and nursing facility-related services), the telemedicine service may be used in addition to the required in-person visit but cannot be used as a substitute. There must be at least one in-person hands-on visit (i.e., not via telemedicine) by a physician, physician's assistant, or advanced practice registered nurse per month to examine the vascular site for ESRD services.

Audio Only :

- In situations where the patient cannot access services via a simultaneous audio/visual platform, either due to technology constraints or other concerns, MDHHS will allow audio-only services for specific codes (listed below)

- Additional guidelines for audio-only service include:
 - Visits that include an assessment tool—the tool must be made available to the beneficiary and the provider must ensure the beneficiary can access the tool.
 - When a treatment technique or evidence-based practice requires visualization of the beneficiary, it must be performed via simultaneous audio/visual technology.
 - Audio-only must be performed at the preference of the beneficiary, not the provider's convenience.
 - Privacy and security of beneficiary information must always be established and maintained during an audio-only visit

Considerations:

Telemedicine must only be utilized when there is a clinical benefit to the beneficiary. Examples of clinical benefit include:

- Ability to diagnose a medical condition in a patient population without access to clinically appropriate in-person diagnostic services.
- Treatment option for a beneficiary population without access to clinically appropriate in-person treatment options.
- Decreased rate of subsequent diagnostic or therapeutic interventions (for example, due to reduced rate of recurrence of the disease process).
- Decreased number of future hospitalizations or physician visits.
- More rapid beneficial resolution of the disease process treatment.
- Decreased pain, bleeding, or another quantifiable symptom

Contingency Planning:

A contingency plan, including referral to an acute care facility or ER for treatment as necessary for the safety of the patient, is required when utilizing telehealth. This plan must include a formal protocol appropriate to the services being rendered.

Modifiers/POS:

- **POS** that would be reported if the service were in person
- **Modifier:** 93 or 95

Patient Location:

The patient's home or another established site considered appropriate by the provider are allowable originating sites, as long as privacy and security requirements are met

Provider Type:

Licensed provider acting within their scope

Must be employed by or contracted with the FQHC/RHC

Reimbursement:

Telehealth services that qualify as a face-to-face visit will generate the PPS/AIR payment, including the below

- Audio only telehealth visit
- PT, OT and ST, when provided using both audio/visual modalities

Transmission & Originating Site Fees:

Authorized Originating Sites that are eligible for Q3014 reimbursement are:

- Local Health Departments, county mental health clinic or publicly funded mental health facility, FQHC, Hospital, Office of a physician or other practitioner, hospital based renal dialysis centers, RHC, skilled nursing facility, tribal health center, local health department

The telehealth facility fee does not qualify as a face to face visit and will not generate the PPS/AIR payment

HIPAA COMPLIANT SOFTWARE

As of the end of the COVID PHE in May of 2023, all payors require a HIPAA compliant software
