The Telehealth Technology Assessment Center Presents:

Telehealth Technology Showcase

What is a Technology Showcase?

The Technology Showcase is an opportunity to learn about telehealth related technology in a hands-on vendor neutral environment.

The Showcase is designed for participant interaction. Participants will be able to hold, compare and interact with innovative and emerging technology in the telehealth market space. Expect to see video and audio solutions, medical peripherals and technology to deliver care to patients at home.

TTAC staff will be on hand to answer questions about the technology present.

Who is it for?

The Showcase is useful for participants at every stage of their telehealth technology journey. Whether you are an organization or individual new to telehealth, or are planning an expansion of your program the showcase will have something for you.

Featured technologies for this event include:

- Broadband and connectivity technology
- Videoconferencing audio and video solutions
- Exam Cameras
- Direct to Consumer kits
- Telemedicine in a case
- Remote Patient Monitoring kits
- Wearable Health Monitoring Technology
